AWD Management Services has extensive experience providing innovative, cost-effective Facility Management solutions.

Our core competencies include:

- Building & equipment maintenance and repair
- Engineering technical support quality assurance
- Financial and budget analysis
- Policy and procedures development
- Change management including process development and improvements
- SME support in the areas of computer systems testing and validation; software development and systems administration

## DIFFERENTIATORS

Our customers choose us again —Our documented superior performance has resulted in repeat business from our customers.

We provide excellent performance —As demonstrated by the highest ratings across the board consistently on CPARS performance evaluations.

We are a proven DOE contractor – with 5 DOE prime awards.

We place the right people in the right jobs— “[AWD’s] desire to ensure that the correct personnel were selected correctly the first time has prevented staff turn-over and has provided a significant benefit to the Government.” (US Nuclear Regulatory Commission)

We are customer driven, results oriented, and cost effective—We have proven systems and processes in place that offer a comprehensive management tool for all projects to monitor tasks, costs, and other management measures for all critical functions of the project.
